A PLACE TO HEAL.**

What is a GEM?

A **GEM** is a precious stone that has value and worth. When you become sponsor, you are showing our guests they have significant value and worth. Each donor level brings priceless treasures to our guests.

Diamonds are considered the earth's hardest natural surface. By becoming a diamond sponsor, you are providing strength and support for our guests not only to survive but to thrive.

Emeralds are the most difficult cut which makes most emeralds vulnerable to fractures. By becoming an emerald sponsor, you are showing the gentleness and care that our guests need during their time of healing.

Rubies were believed in ancient times to bring a rebirth. By becoming a ruby sponsor, you are offering our guests the opportunity for a rebirth; a life free from abuse and to live with Strength, Dignity, and independence.

Sapphires were believed in ancient times to bring protection from harm. By becoming a sapphire donor, you are providing protection for our guests.
